

Affiliate Reseller Program

The Authorize.Net Affiliate Reseller Program provides you with the opportunity to offer a premier payment gateway solution bundled with the services you provide, while gaining a valuable new source of revenues. We are committed to meeting your needs and your merchants' payment needs as simply as possible so you can focus on your core business. In fact, we'll handle everything—including account setup, billing, free customer support, and even an Internet merchant bank account.

Earn up to 40%

sales commissions for simply referring customers to us for payment processing.

Ongoing Revenue Stream

Maximize revenue on a per-customer basis.

- + Increase Revenue - Earn lifetime residuals on referred customers, with commissions of up to 40% for payment gateway and merchant account sales.
- + Broaden Your Solution - Offering reliable payment solutions expands your business prospects and adds value to your merchant solutions.

Refer Your Customers, We Manage the Rest

Authorize.Net provides comprehensive sales assistance so you can continue to focus on selling your own products or services.

- + No Training Required - Our dedicated account representatives handle all aspects of setting up your merchants' Authorize.Net Payment Gateway accounts.
- + Comprehensive Payments Solutions - Authorize.Net offers a "one-stop shop" for all of your merchants' needs.
- + Manage Your Referred Merchant Accounts - The Reseller Interface is a password-protected Web site that allows you to track your referrals.
- + Free Merchant and Reseller Support - Authorize.Net offers convenient ways for you and your merchants to get free support.

Who Can Become an Affiliate Reseller?

Any business that serves merchant customers can become an affiliate reseller.

- + Shopping cart developers
- + Point-of-sale systems developers
- + Web developers
- + Web hosting companies
- + Internet service providers
- + Systems integrators and value added resellers
- + Independent software vendors

Displaying our preferred reseller logo on your Web site immediately conveys to your merchant customers that you resell the industry's leading payment gateway solution.

Certified Partner Programs

Processing payment transactions via Internet Protocol (IP) presents a variety of innovative growth opportunities for you and your merchants—providing faster transaction authorizations, lower costs, and greater overall efficiency.

Since 1996, Authorize.Net has been a leading provider of IP based payment gateway solutions. With more than 185,000 merchants and thousands of respected industry resellers, Authorize.Net is uniquely positioned to help you market your business and maximize revenue opportunities through our strategic partner programs.

Integrating Your Product

Connecting to the Authorize.Net Payment Gateway is easy. We can help you integrate e-commerce Web sites, mail order/telephone order (MOTO) systems, point-of-sale (POS) terminals and software, kiosks, mobile devices, and more.

- + Integration Center - Visit <http://developer.authorize.net> for online resources such as implementation guides, sample code, troubleshooting tools, and more.
- + Easy to Integrate - Authorize.Net offers several flexible application programming interfaces (APIs) to help you integrate to the payment gateway.
- + No Up-Front Fees - Our test environment provides everything you need—no software development kit (SDK) or license fees.
- + One-to-Many Integration - A single integration provides Class B certified connections to multiple leading payment processors, so you can start selling to virtually any U.S. merchant.
- + Professional Support - Our Integration Services team is available to assist you via free e-mail support.

Visit <http://developer.authorize.net> today for everything you need to integrate your solution to the Authorize.Net Payment Gateway.

Marketing Your Product

Authorize.Net offers three certification programs to help you promote your business.

- + Market to thousands of prospective merchants via our online partner directories.
- + Increase credibility by displaying our certified partner logo on your Web site.

Become a Certified Solution Partner

If you offer products or services that directly integrate to the Authorize.Net Payment Gateway, the Authorize.Net Certified Solution Program is for you. Certification gives you exposure to thousands of Independent Sales Organizations that can bundle and resell your solution with our payment gateway and a merchant bank account.

Become a Certified Developer Partner

If you develop custom integrations for merchant Web sites or products, we can provide you with the resources you need to integrate successfully to our payment gateway and certify your code to our standards. Our Certified Developer Directory reaches thousands of prospective customers who need assistance connecting to the Authorize.Net Payment Gateway.

Become a Certified Hosting Partner

The Authorize.Net Certified Hosting Program is designed to assure that companies providing hosting services to Authorize.Net merchants are maintaining proven and reliable hosting environments. As a certified hosting partner, you can add value to your Web hosting services by offering your e-commerce merchant customers simple and secure payment processing.

Payment Solutions for Your Merchants

Standard Features

Authorize.Net supports an unlimited number of transactions and account users, regardless of your merchants' distribution models—e-commerce, retail, mail order/telephone order (MOTO) or mobile.

Security and Reliability

Authorize.Net is uncompromising when it comes to safeguarding customer information. We maintain compliance with the payments industry's highest security initiatives. Our geodistant redundant data centers provide uninterrupted power systems, physical security, and surveillance 24x7. Your merchants are protected by the strongest encryption methods and security protocols available.

Fraud Prevention

Merchants lost an estimated \$3.6 billion in revenue to online fraud in 2007, an increase of 16% over the previous year.* We offer a range of features to help your merchants protect their businesses. In fact, other payment gateways charge additional fees for features that we include for free with each payment gateway account. In addition, our Fraud Management Department is dedicated to helping merchants identify and mitigate their risk of fraud.

Online Reporting and Account Management

The Merchant Interface is a secure Web site that allows merchants to submit and manage transactions, configure account settings, view account statements, generate reports, manage unique user accounts, and more.

Authorize.Net Verified Merchant Seal™

By displaying the Authorize.Net Verified Merchant Seal on their Web sites, your merchants create a sense of confidence for consumers who may be concerned about the security of online purchases, potentially increasing sales.

Free Customer Support

Authorize.Net offers your merchants free customer support via phone, e-mail, and online chat. Client Services representatives are available Monday through Friday from 6 AM to 6 PM Pacific time.

Value-Adding Products

In addition to its standard features, the Authorize.Net Payment Gateway provides several powerful value-adding products designed specifically to help merchants enhance their transaction processing capabilities. Additional fees may apply.

eCheck.Net®

Merchants can accept and process payments from consumer and corporate bank accounts directly from their Web site or through the Authorize.Net Virtual Terminal.

Fraud Detection Suite™ (FDS)

FDS is a customizable set of rules-based filters and tools that allow Web merchants to identify, manage, and prevent suspicious and potentially costly fraudulent transactions.

Automated Recurring Billing™ (ARB)

ARB is a convenient and powerful tool for managing subscription and installment payments. Merchants can take advantage of ARB's flexible features to enhance customer service and build customer loyalty, while reducing authorization declines and overall administrative costs.

Customer Information Manager (CIM)

Merchants can now store sensitive payment data on our secure servers via the CIM API, potentially simplifying their compliance with the Payment Card Industry (PCI) Data Security Standard. CIM also simplifies payments for returning customers and recurring transactions.

About Authorize.Net®

Authorize.Net, a CyberSource solution (Nasdaq: CYBS), provides secure, reliable, payment gateway solutions that enable merchants to authorize, settle and manage electronic transactions anytime, anywhere, via Web sites, retail, mail order/telephone order (MOTO) call centers and on

wireless devices. Authorize.Net is sold through an extensive network of reseller partners and financial institutions that offer its industry leading payment services to their merchant customers.
