

Authorize.Net®

Accept Payments. Anywhere.

Secure and Reliable

With Authorize.Net, your customers can be confident their data is secure.

- Compliant with the Payment Card Industry Data Security Standard (PCI DSS)
- Billions of transactions processed
- Secure, fully redundant data centers

Fraud Prevention

U.S. merchants lost an estimated \$3.5 billion to online fraud in 2013.* We offer a variety of tools to help protect your business.

- Free Address Verification Service (AVS) and Card Code Verification (CCV)
- Free Advanced Fraud Detection Suite™ — Fully customizable to help thwart fraud and protect your business

Free Customer Support

- Free 24x7 customer support via toll-free phone, eTicket, email or live chat
- Online searchable Support Center
- Winner of seven consecutive ACE Awards for customer satisfaction

Online Reports and Settings

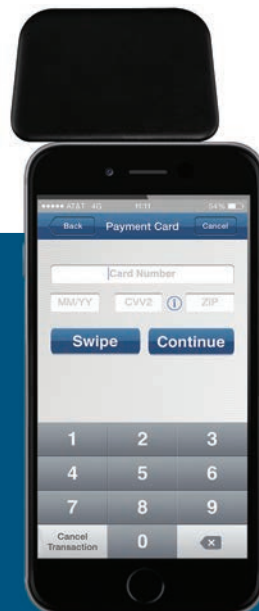

Manage your account through the Authorize.Net Merchant Interface, a password-protected website.

- Submit, monitor and review transactions
- Configure account and transaction settings
- View billing statements and reports
- Configure mobile devices
- Multiple user accounts for separate employee roles

Third Party Products and Services

Choose from dozens of turnkey, third party payment solutions, including shopping carts, online store builders, POS systems, kiosks and mobile devices. Simply visit our online Certified Solutions Directory.

Accept credit cards, signature debit cards, electronic check and alternative payments.

Free Authorize.Net mPOS mobile application for Apple iOS and Android devices.

Free Additional Services

Your Authorize.Net account includes each of these services for no additional cost.

Automated Recurring Billing™ (ARB)

ARB is a convenient and powerful tool for managing recurring transactions such as subscriptions or installment payments. Subscriptions can be integrated into your checkout page.

Advanced Fraud Detection Suite™ (AFDS)

Over a dozen customizable, rules-based fraud filters that provide you with tools to identify, manage, and prevent suspicious and potentially costly fraudulent transactions.

Customer Information Manager (CIM)

Encrypt and store sensitive payment data on our secure servers, potentially simplifying your compliance with the Payment Card Industry Data Security Standard (PCI DSS) as well as the payments process for returning customers.

Alternative Digital Payments

Provide your customers with the latest digital payment options: Apple Pay, PayPal, and Visa Checkout (coming soon!).

Sync for QuickBooks™

Save valuable time by automatically importing your settled Authorize.Net transactions directly into your existing QuickBooks account.

Verified Merchant Seal

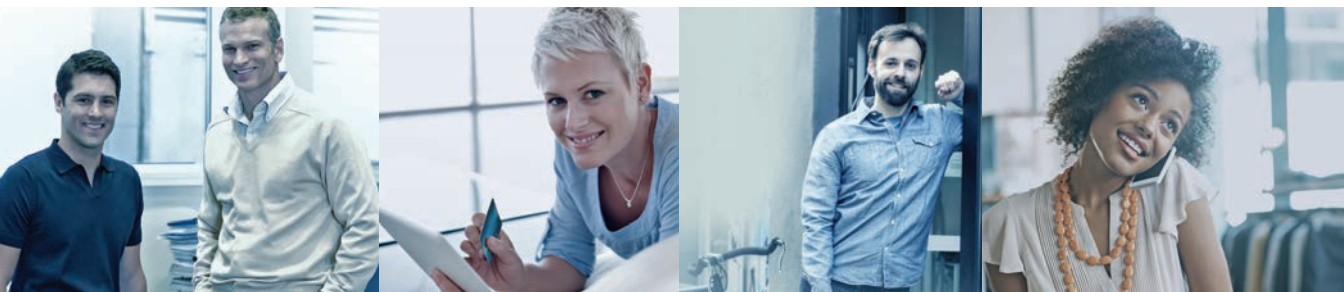

Displaying the free Authorize.Net Verified Merchant Seal on your website is one of the easiest ways to create customer confidence and potentially increase sales.

Optional Services

eCheck.Net®

Accept electronic check payments directly from websites or through the Authorize.Net Virtual Terminal and expand the payment options available to your customers. Additional fees apply.
