

Big thinking for small businesses.

More solutions. More support.
More strength to stand on.
Now you are good to grow with Authorize.Net.

Authorize.Net pioneered online solutions for businesses to accept credit card payments. Today, Authorize.Net is the payment platform most trusted by small businesses. Built on more than 20 years of innovation and the strength of Visa underpinning every transaction, with Authorize.Net now you're good to grow.

More Payment Solutions

Authorize.Net has over 900 technology integrations in a wide range of vertical markets and over 400 certified technology partners. With Authorize.Net your customers can go beyond the gateway and connect to everything their businesses need as they grow, including invoicing, account updater, subscriptions, fraud management, accounting, tokenization, and more.

Payment solutions can be folded seamlessly into the customer experience using a flexible API for developers, as well as Software Developer Kits for native mobile integration, and hassle-free forms for rapid development.

Authorize.Net pioneered solutions for online credit card payments – and today, we're the payment platform most trusted by small businesses.*

More Support

Don't worry – we're here to support you. You can get help when and how you need it. Authorize.Net provides award-winning 24x7 phone support for small business merchants. There are also options for e-ticket, chat, and an online library of resources, discussion boards, and blogs.

More Strength to Stand On

With the reliability, security, and continuous investment of Visa, you can rely on the Authorize.Net network. Visa's reliable active-active technology infrastructure currently delivers 99.99% uptime. Additionally, Visa's powerful Common Connectivity Services supports scalability and global expansion. Authorize.Net is a stable, industry pioneer in the payment gateway space and supports hundreds of thousands of businesses and billions of dollars in transactions.

Now You're Good to Grow

Too many companies try to simplify payments by giving fewer options and less support. As a result, businesses end up with *payments lite* – a gateway that can't handle growth. For over 20 years, Authorize.Net has helped online companies accept credit card payments. And today, Authorize.Net is the payment platform most trusted by small businesses.

Advanced Services

In addition to the strong payment gateway foundation that Authorize.Net provides, the following advanced services are also included:

Customer Profiles & Recurring Payments

Store sensitive payment data on Visa secure servers to help simplify Payment Card Industry Security Standards Council (PCI SSC) compliance. Automate recurring billing and retrieve stored payment info to make repeat purchases easier for returning customers.

Advanced Fraud Detection Suite (AFDS)

Identify, manage, and prevent suspicious and potentially fraudulent transactions with over a dozen customizable, rules-based fraud filters.

Alternative Digital Payments

Accept the latest digital payment options, including Visa Checkout, Android Pay, Apple Pay, and PayPal.

Invoicing

Simplify the billing process via digital invoices that contain a simple payment hyperlink. Additionally, draft invoices for sending later and view payment status for invoices already sent.

Optional Services

In addition to the Authorize.Net standard gateway solution and advanced services, several optional services are also available.

eCheck.Net

Accept electronic check payments directly from websites or through the Authorize.Net Virtual Terminal and expand the payment options available.

Account Updater

Automatically update customers' card-on-file information once a month.

Digital Payments Integration

Authorize.Net Accept Suite provides a set of tools for integrating friction-free digital payments into mobile applications on multiple devices, while simplifying PCI compliance.

Payment Forms

Businesses can use our built-in, mobile-optimized hosted payment forms or self-host these forms using Accept.js (Javascript).

Customized Experiences

Tap into native software development kits (SDKs), sample code, digital wallets, and client libraries to manage user interface and transaction handling.

Authorize.Net values your partnership. When you refer your merchant customers to Authorize.Net, you have support throughout the sales cycle, from new customer acquisition to ongoing support. Your assigned Account Executive and our award-winning partner support team are available to assist by calling 888-437-0481.
